PROFESSIONAL SUMMARY

Software Engineering student with strong expertise in full stack development, cybersecurity, and network/system administration. Hands-on experience designing SaaS platforms, building business applications, and implementing secure SIEM-based monitoring infrastructures. Passionate about scalable software architecture, secure system design, and high-quality engineering practices.

TECHNICAL SKILLS

- Programming Languages:** JavaScript, TypeScript, Python, Java, C
Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js, REST APIs
Databases: PostgreSQL, MySQL, MongoDB
DevOps / Tools: Git, GitHub Actions, CI/CD
Cybersecurity: SIEM, IDS/IPS, JWT, OAuth, LDAP, API Security, System Hardening
Networking: TCP/IP, DNS, HTTP/HTTPS, VLAN, Routing, Switching, Firewall Management

PROFESSIONAL EXPERIENCE

Network & Systems Administrator –

MIT Polytech – Tunis, Beb Khadra | 2023

- Administered and maintained the institution’s network and systems infrastructure
- Monitored and managed critical network equipment including routers, switches, firewalls, and Wi-Fi access points
- Ensured infrastructure availability, security, and internal IT support

WordPress Web Developer –

Hollywood.Tn – Denden, Tunis | Mars 2025 – Août 2026

- Developed and deployed the company’s official website using WordPress
- Customized themes and plugins according to business requirements
- Maintained website security, updates, and performance optimization

Freelance Software Developer –

Client Project :AZ Librairie – Tunis, Khaznadar | 2024

- Designed and developed a local inventory management application for bookstore operations
- Implemented daily, monthly, and yearly stock tracking dashboards
- Deployed the solution on client premises and provided onboarding support

MAJOR TECHNICAL PROJECTS

HealthyCore.tn – Healthcare SaaS Management Platform

- Designed and developed a full-stack SaaS healthcare platform for clinics and medical practices
- Built scalable modular architecture for multi-tenant deployment
- Implemented secure authentication and role-based access control

SIEM Security Monitoring Infrastructure

Final Year Project – Banque de Tunisie

- Designed and deployed a SIEM-based security monitoring infrastructure
- Integrated OSSEC HIDS and Suricata NIDS for threat detection
- Simulated brute-force and DoS attacks to validate detection mechanisms
- Developed dashboards and alerting workflows for SOC monitoring

Service Deliver – Delivery Management Platform

- Developed a full-stack web and desktop delivery/service management platform
- Designed modular application architecture and relational database schema

EDUCATION

- Engineering Degree in Software Engineering & Information Systems | 2023 – 2026

TEK-UP University — Ariana

- Bachelor’s Degree in Computer Science

Specialization: Networks & IT Services
| 2020 – 2023

ISET Siliana — Siliana

LANGUAGES

French: C1

English: B1

Spanish: A2

CERTIFICATIONS

- CCNA – Cisco Certified Network Associate
- Microsoft Azure Developer
